DETAILED ACTION

Reason for allowance

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 2-5, the prior arts fail to teach or fairly suggest a method of determining restoration routes in a mesh network, the network comprises a plurality of network nodes interconnected by spans and each span having a predetermined amount of working capacity, the method comprises a step of adjusting the value of the intermediary variable and repeating the selection of restoration routes for each span according to the adjusted bi-criteria objective function until a final value of the intermediary variable is reached, in combination with other limitations, as specified in the independent claim 2.

Regarding claims 6-10, the prior arts fail to teach or fairly suggest a method of determining network span capacity required for traffic protection in a mesh network comprising a step of determining an amount of spare capacity, additional to the working capacity, required for each span in accordance with the selected set of restoration routes, in combination with other limitations, as specified in the independent claim 6.

Regarding claims 11-13, the prior arts fail to teach or fairly suggest a method of determining restoration routes in a mesh network, the network comprises a plurality of network nodes interconnected by spans and each span having a protection routing control function, the method comprises the steps of determining an amount of spare capacity required for each span in accordance with the set of restoration routes selected for the span, and adapting the network to provide the spare capacity required for each span, in combination with other limitations, as specified in the independent claim 11.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
